DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 1 and 9 have been allowed over the Osinki and Alferness prior art because they fail to teach the multiple discrete sections of the amplifying material and portions of the tuning material being separated from the discrete sections of the amplifying material by a distance greater than a charge diffusion length.

Claim 21 has been allowed over the Osinki and Alferness prior art because they fail to teach the amplifying material having a composition different from the composition of the first waveguide material, the amplifying material disposed in a parallel relationship proximate the first waveguide so as to be capable of amplifying light at the same time as the light propagates along the first waveguide of the directional coupler filter.

Claim 25 has been allowed over the Osinki and Alferness prior art because they fail to teach the amplifying material having a composition different from the composition of the first waveguide material, the amplifying material disposed in a Application/Control Number: 10/080,492

Art Unit: 2828

parallel relationship proximate the first waveguide so as to be capable of amplifying light at the same time as the light propagates along the first waveguide when a current passes from the electrode through the amplifying material.

Claims 3-8, 11-20, 22-24, and 26-28 have been found allowable due to their dependency on claims 1, 9, 21, and 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Communication Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dung (Michael) T Nguyen whose telephone number is (571) 272-1949. The examiner can normally be reached on 9:00 - 19:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Min Harvey can be reached on (571) 272-1835. The fax

Application/Control Number: 10/080,492

Art Unit: 2828

phone numbers for the organization where this application or proceeding is assigned are (703) 306-5511 for regular communications and (703) 306-5511 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 306-3329.
